Dear Dr Joyce Knudsen,

Nearly a year has past since my initial training and I want to take this opportunity to thank you and let you know that I have started running classes myself. I just finished my firs class last month, and as my business grows and I develop further as an Image Consultant I realize more, that I love what I do.

I have the constant confidence and I know now that with persistence and hard work any thing is possible. I have passed my FLC and now I am preparing for my CIP. Your certificate will help contribute to my CEU, and I am looking forward to put my CIP together.

I am building a very successful image business, and I'm excited about the prospect of helping other women feel good about themselves, no matter what size, shape or age they are through the effect of clothes, color and self-belief.

Yours Truly,

Ferial Youakim, AICI
Image, Style & Color Consultant
Makeup artist
